

DAVID LUCAS BAUTISTA

Front End Developer

+52 272 101 0707 | ing.davlucbau@gmail.com | linkedin.com/in/david-lb

PROFESSIONAL SUMMARY

Front-End Engineer with 5 years of experience architecting and building pixel-perfect, scalable user interfaces with Angular, React, and Next.js. Proven hands-on leader, with experience participating as a Software Engineer in the design and delivery of SAGIM, a multi-tenant SaaS platform. Experienced mentoring developers, leading technical interviews, and driving code quality through reviews and CI/CD pipelines at NTT DATA. Strong Git workflow discipline, build-tooling expertise (Webpack, Vite), and comfortable operating in distributed, cross-border, English-speaking teams.

KEY ACHIEVEMENTS

- Led technical interviews and mentored junior developers at NTT DATA, establishing code review standards and testing practices.
- Participated in the design and implementation of enterprise-scale front-end architecture at NTT DATA, collaborating cross-functionally with backend teams in client-facing technical discussions.
- Participated as Software Engineer in the front-end development of SAGIM, a multi-tenant SaaS platform, delivering pixel-perfect Angular and Next.js interfaces for municipal and citizen-facing services.
- Built and maintained CI/CD pipelines and automated testing (Playwright, WebDriverIO, Appium) to ensure front-end release quality.

TECHNICAL SKILLS

Front-End: Angular, React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap
Architecture & UI/UX: Component-based architecture, design-to-code (pixel-perfect implementation), performance optimization

Dev Tools: Git, CI/CD pipelines, Webpack, Vite

Backend (supporting): Node.js, NestJS, REST APIs, WebSockets, MongoDB, PostgreSQL

Cloud & Testing: AWS, Azure, Docker, Jest, Playwright, WebDriverIO, Appium

Leadership: Technical mentoring, code reviews, cross-functional collaboration, distributed/nearshore teams

Languages: Spanish (native), English (advanced)

PROFESSIONAL EXPERIENCE

Senior Software Engineer | NTT DATA

2023 – 2026

- Own front-end architecture decisions for enterprise-scale applications built with Angular, React, and TypeScript.
- Lead technical interviews and mentor junior developers, setting front-end coding standards and best practices.
- Conduct code reviews and implement automated testing pipelines (Playwright, WebDriverIO, Appium) as part of CI/CD workflows.
- Collaborate cross-functionally with backend teams and participate in client-facing technical discussions in English within global delivery teams.

Software Engineer | Nexora Technologies

2021 – 2023

- Participated as Software Engineer in the front-end development of SAGIM, a multi-tenant SaaS platform, building the Angular admin dashboard and Next.js citizen portal.
- Translated design requirements into pixel-perfect, responsive interfaces covering treasury, citizen services, and public works modules.
- Implemented real-time UI features with WebSockets and integrated CI/CD deployment workflows using Docker on AWS infrastructure.
- Delivered the platform to production for two municipalities, managing the full front-end release cycle.

Software Engineer | Consultora Ohkasis

Sep 2020 – Jul 2021

- Developed modern front-end interfaces using Angular and React for client-facing web applications.
- Built supporting RESTful APIs with NestJS and Node.js.
- Containerized and deployed applications using Docker.
- Worked directly with clients to translate business requirements into technical UI solutions.

EDUCATION

Instituto Tecnológico Superior de Zongolica
Bachelor's Degree in Computer Systems Engineering (2021)

SOFT SKILLS

Leadership • Communication • Problem Solving • Critical Thinking • Teamwork • Adaptability • Time Management • Mentoring
